To whom it may concern

I have employed Nikola, **Margony Design & Build Ltd** owner and his team on two major projects over the last few years.

In both cases, the work involved the complete refurbishment of houses that were in excess of 150 years old. The work required that Margony:

- Removed all existing plumbing and heating and replaced with new installations
- Removed all existing wiring and electrical fittings and fully rewired
- Replaced all floors, walls, ceilings and doors
- Fitted kitchen
- Installed wooden decking and paving for outdoor areas
- Inserted steel frames into new constructions

In both cases the work was completed on time and within budget. The workmanship is of the highest quality and Nikola managed all the individual strands of work and tradesmen as well as purchasing all materials and fittings. Nikola and his team are punctual, polite, reliable and tidy.

It has been possible to build a strong working relationship with Nikola to the extent that his judgement is trusted without question and I consider his integrity to be absolute.

I have no hesitation whatsoever in recommending Margony to others.

Kind regards

Kailash Chada
